

Power: **24; 30; 48W**  
 Rated voltage PRI: **180 - 264V 47/63Hz**  
 Rated voltage SEC: **12; 24V**  
 Efficiency: **82 - 86% (typical)**

Encased power supplies with direct current output designed for assembly on T-35 bus. They have short-circuit, overload and overvoltage protections. Protection grade IP30. Max ambient temperature 40°C. Manufactured in compliance with EN55022, EN55024 and EN61558-2-17. The PSLR 24 model is designed especially for industrial electrical switchgears, alarm devices and monitoring systems. It is equipped with short-circuit and overload protection, has a self-extinguishing plastic housing (meets the requirements of insurance companies). Manufactured in compliance with EN61558-1, EN61558-2-16, EN61000-6-3 and EN61000-6-2.
