

Current range: **1 - 10A**  
 Rated voltage PRI: **230V; 400V 50/60Hz**  
 Rated voltage SEC: **24V**

Power supplies built on a base of STM transformers with DC output designed for industrial installations and process control equipment. They feature filtration system (STLF type) or stabilisation system (STLS type). The transformers are made with Class I insulation and protection grade IP00, maximum ambient temperature 40°C, thermal class of insulation B (130°C) manufactured in compliance with EN61558.
